

Our Policy:

Meet or exceed our customer's needs and Expectations.

Our Guarantee:

If your company follows AUTUS' advice and recommendations, your Quality System will be fully certifiable.

Our Principles:

Our services are based on knowledge and experience, not opinions.

We develop your Quality System with continuous improvement in mind.

We utilize your existing base Quality System as much as possible.

We help you understand industry standards and their interpretation.

We assist you in your journey toward certification from the first day until your Quality System is certified... and beyond.

We provide immediate assistance to meet your needs.

We provide you a firm quotation up front on your entire project.

Professional and Cost Effective Services

AUTUS
CORPORATION

ARE YOU...

...feeling lost going through the maze of ISO 9000 standard requirements?

...trying to interpret ISO 9000, ISO 17025 or API standards?

...pressed by a registration deadline?

...looking for help to develop the required documentation?

...needing a formally documented Quality System, but do not know how to approach the project?

...confused of whether you should have your Quality System registered, or just formally documented and maintained?

...discouraged by the high cost of registration?

...concerned about employee participation and training in the implementation and maintenance of a Quality System?

...need to establish a QA/QC department, but can not afford it?

If to any of the above questions your answer is "Yes", you need...
